

Hanoverian Foal

start this long-legged baby with two circles for the body. Then finish with a short, brushlike tail and a stiff, upright mane.

fun fact

The first Hanoverians worked as carriage and military horses. But the Hanoverian is now one of the most important sport horse breeds. With their long stride, powerful action, and excellent jumping skills, they have won many world championships, including a number of Olympic medals and more World Cups than any other breed!
